

ADDENDUM NO. 1

Project Name: Purple People Pleaser (PPP) Trail Redesign and Rehabilitation

Issue Date of Addendum: March 24, 2026

RFP Closing Date: April 15th, 2026

TO ALL PROPONENTS:

This Addendum is issued prior to the closing of the Request for Proposals (RFP) to provide for changes in the technical requirements and equipment specifications. This Addendum shall form part of the Contract Documents and is to be read, interpreted, and coordinated with all other parts of the RFP.

The following revisions supersede the information contained in the original RFP package:

1. REVISION TO SECTION 3.3: TECHNICAL SPECIFICATIONS

Original Language: * Machine Size: Limited to ≤ 6 ft to control the construction footprint.

Revised Language:

- **Machine Size – Existing Trail Footprint:** For work occurring on the existing 1.45 km trail footprint—including sections designated for refurbishment, decommissioning/reclamation, or narrowing—machines larger than 6 feet are permitted. Proponents must ensure that the use of larger machinery does not cause unnecessary damage to surrounding vegetation outside the established corridor.
- **Machine Size – New Build Sections:** For all segments of new trail construction, the machine size remains strictly limited to ≤ 6 feet to maintain a narrow construction footprint and preserve the integrity of the trail corridor.

2. REVISION TO SECTION 11.4 (or 6.4): VEHICLES AND EQUIPMENT

Amendment: Proponents shall clearly identify in their equipment list which machines will be utilized for the new build sections (adhering to the 6ft limit) and which larger machines, if any, are proposed for the refurbishment and decommissioning of the existing trail bed.

ACKNOWLEDGEMENT OF ADDENDA Proponents must acknowledge receipt of this Addendum in their Proposal submission. Failure to do so may result in the disqualification of the Proposal.

All other terms and conditions of the RFP remain unchanged.

End of Addendum No. 1
